

Agile, Scrum and LeSS Framework

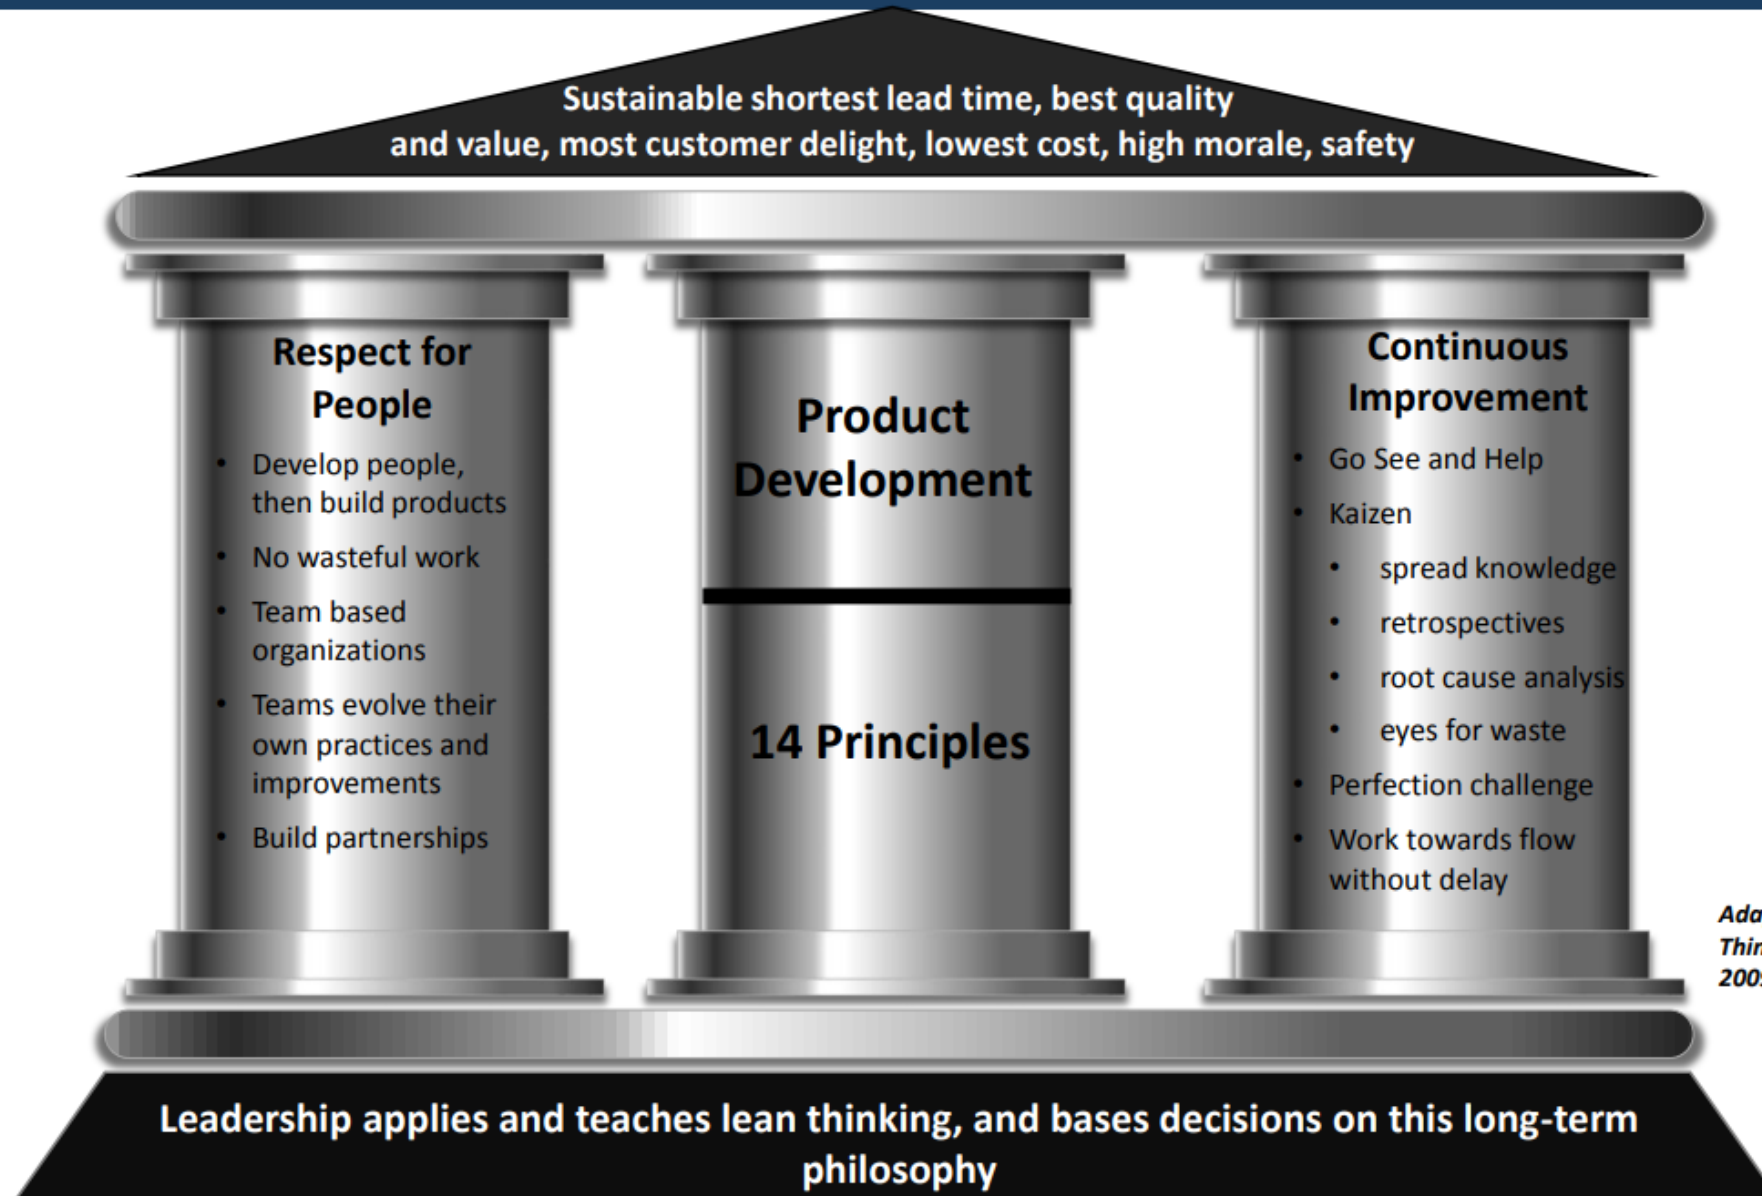

30 September 2022

Agile Foundations

What's next?

Adapted from "Summary of the Toyota Way (Lean Thinking) House by Craig Larman and Bas Vodde. 2009

Manifesto for **AGILE SOFTWARE DEVELOPMENT** 2001

« We are uncovering better ways of developing software by doing it and helping others do it.

THROUGH THIS WORK WE HAVE COME TO VALUE :

INDIVIDUALS &
INTERACTIONS

WORKING
SOFTWARE

CUSTOMER
COLLABORATION

RESPONDING
TO CHANGE

OVER

PROCESSES &
TOOLS

OVER

COMPREHENSIVE
DOCUMENTATION

OVER

CONTRACT
NEGOTIATION

OVER

FOLLOWING A
PLAN

THAT IS, WHILE THERE IS VALUE IN THE ITEMS ON THE [BOTTOM], WE VALUE THE ITEMS ON THE [TOP] MORE. »

What are the implications of being a lean and agile organization?

What has to change?

Scrum Fundamentals

What's next?

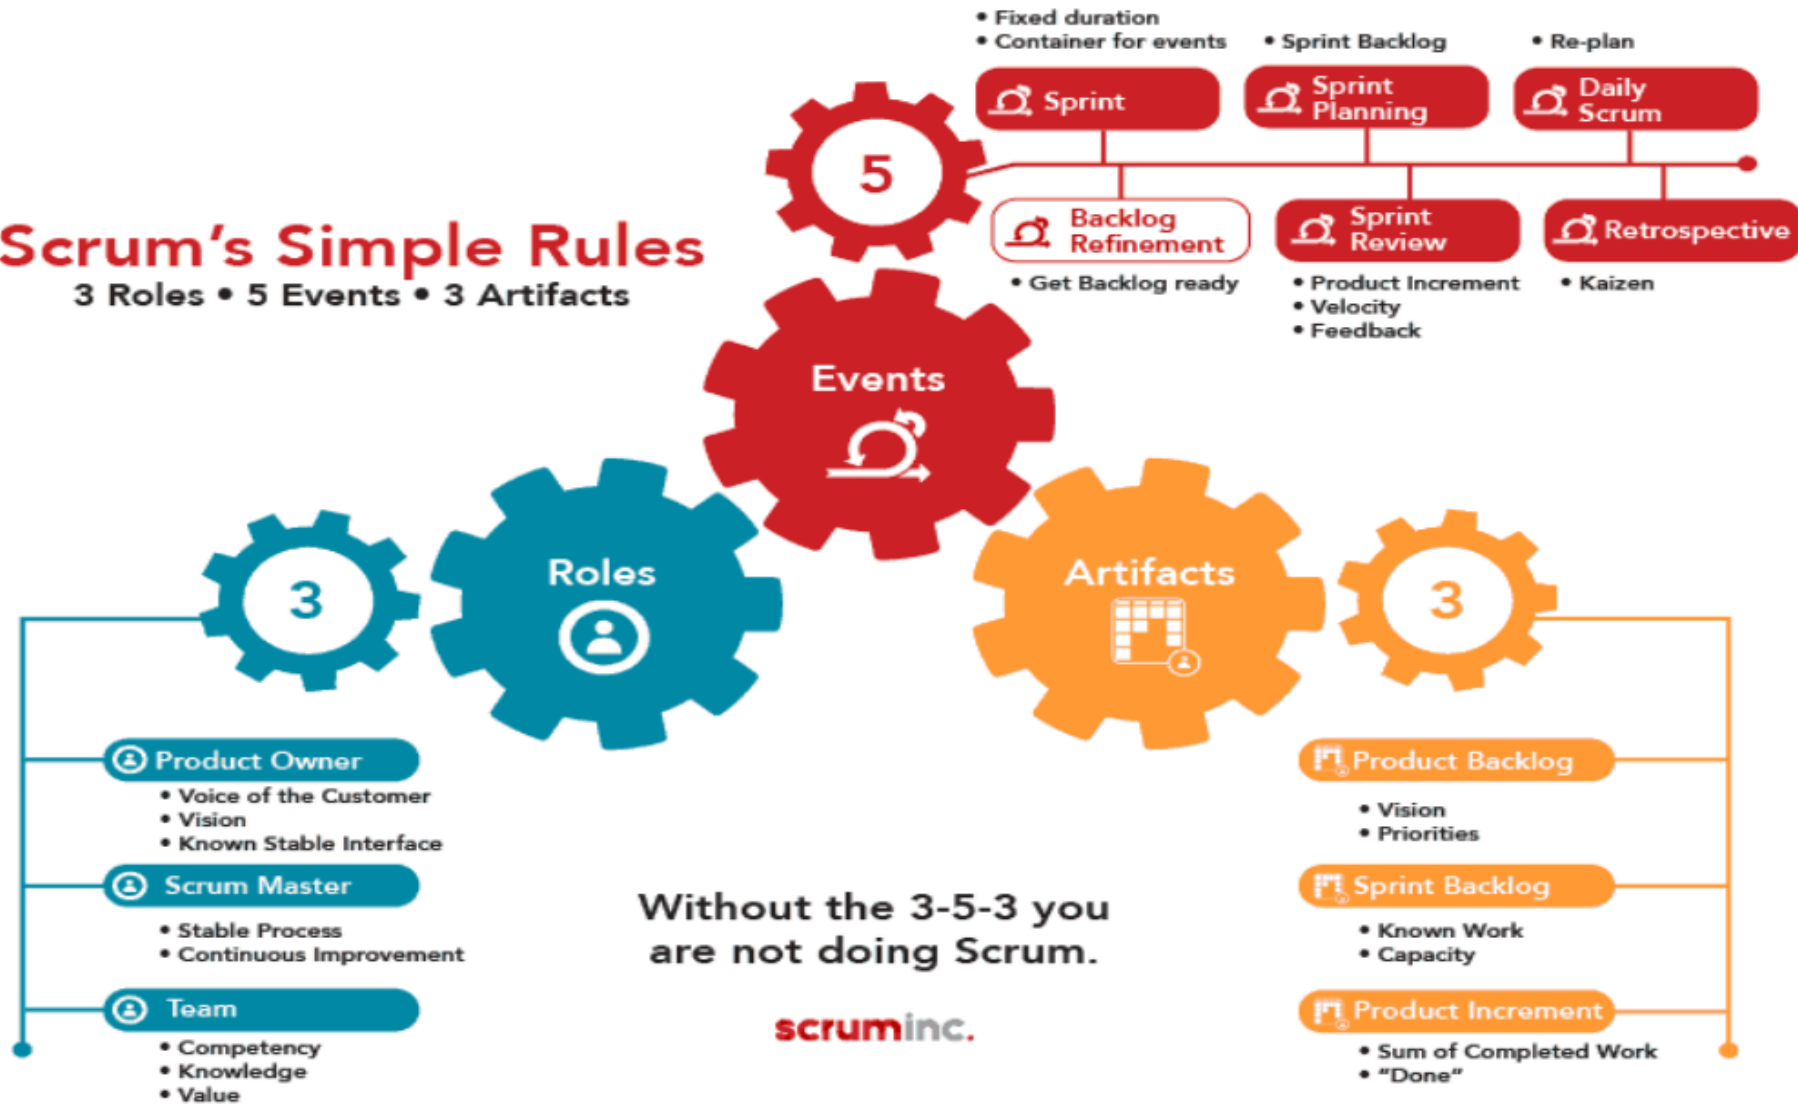

3-5-3 Structure

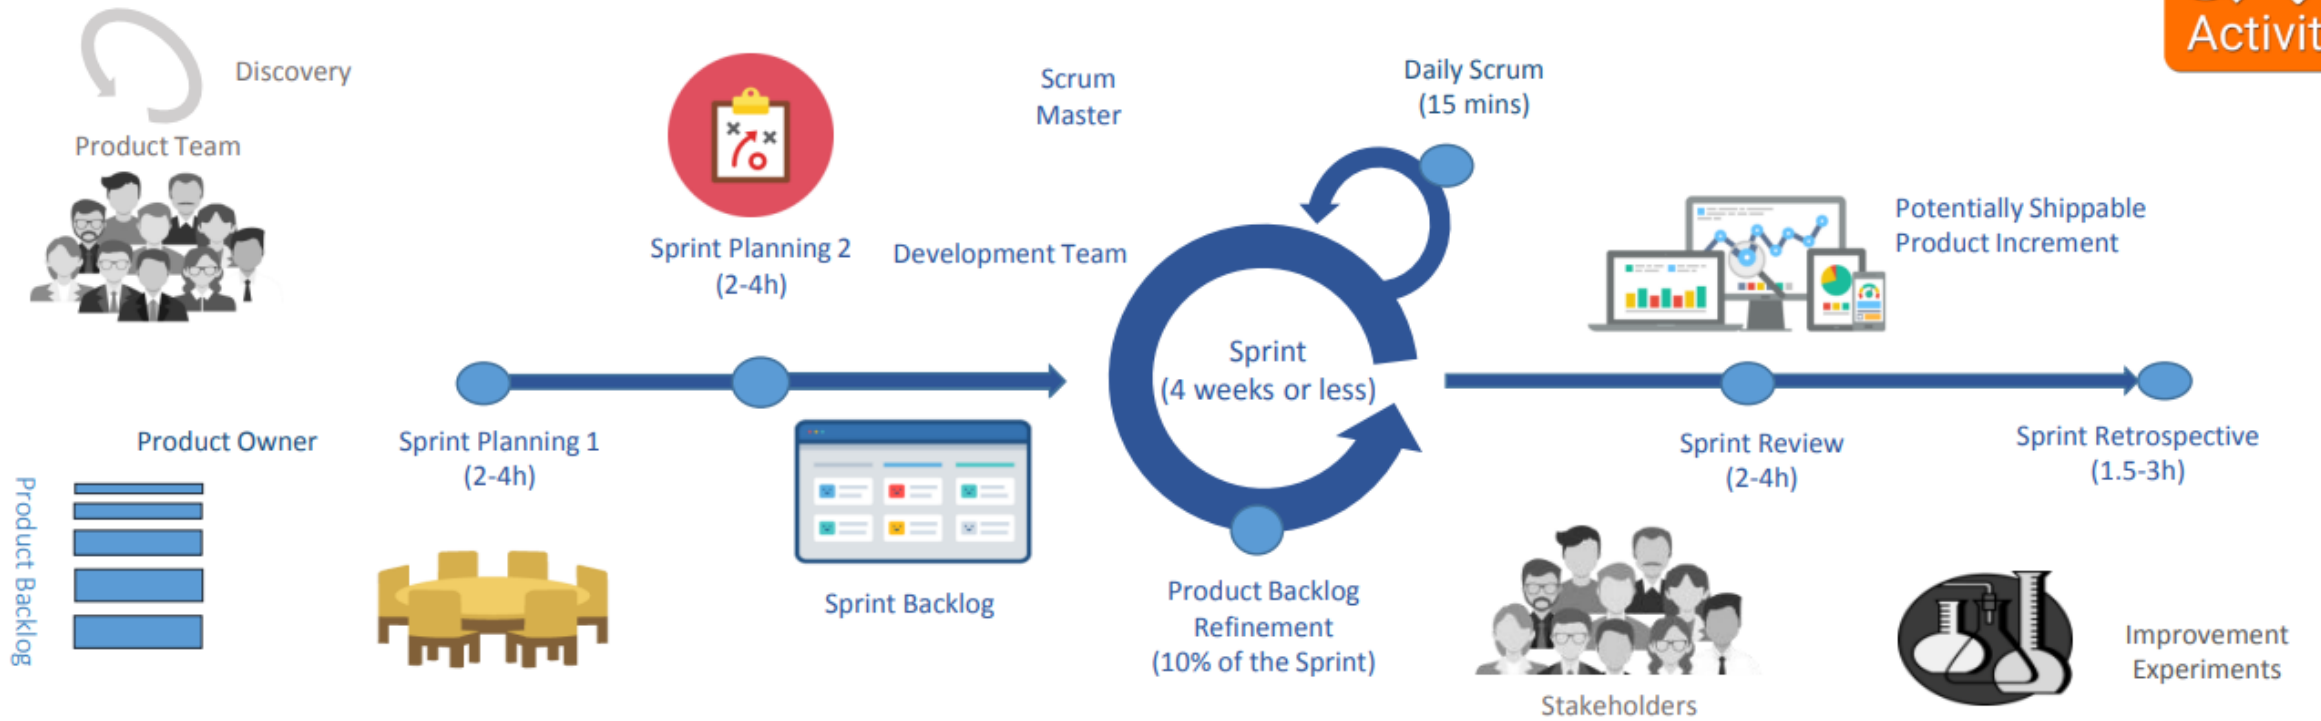

Scrum's Simple Rules

3 Roles • 5 Events • 3 Artifacts

Introduction to the Scrum Framework

What are Stories?

Stories are a great technique for requirements by **conversation.**

They allow us to have a conversation around requirements/needs at all levels of progressive refinement.

Product Owner

Scrum Master

Let's talk about each one

Development Team

Sample Schedule

Wednesday	Thursday	Friday	Monday	Tuesday
<i>Sprint Planning Topic 1</i> 9:00-10:00 <i>Sprint Planning Topic 2</i> 10:00-1:00	<i>Daily Scrum</i> 9:00 <i>Product Backlog Refinement</i> 3:00-5:00	<i>Daily Scrum</i> 9:00	<i>Daily Scrum</i> 9:00 <i>Product Backlog Refinement</i> 3:00-5:00	<i>Daily Scrum</i> 9:00
<i>Daily Scrum</i> 9:00	<i>Daily Scrum</i> 9:00 <i>Product Backlog Refinement</i> 3:00-5:00	<i>Daily Scrum</i> 9:00	<i>Daily Scrum</i> 9:00 <i>Product Backlog Refinement</i> 3:00-5:00	<i>Daily Scrum</i> 9:00 <i>Sprint Review</i> 1:00-3:00 <i>Sprint Retrospective</i> 3:00-4:30

- PO must attend
- PO may attend

Considerations for Acceptance

You're Product Owners now. That means you are on the hook for acceptance and approval.

How can I accept it if my people haven't tested it yet?

What if I'm not an expert in what's been built?

What if I accept some of the items, but not all of them? Won't that jeopardize a release?

What if I don't understand what they're showing me?

What if the team wants to show me something that didn't meet the DoD?

What if it meets the DoD but I don't like it?

The output of the Sprint Retrospective is at least one improvement experiment that the team will focus on in the next Sprint. This should be added to the Sprint Backlog for transparency.

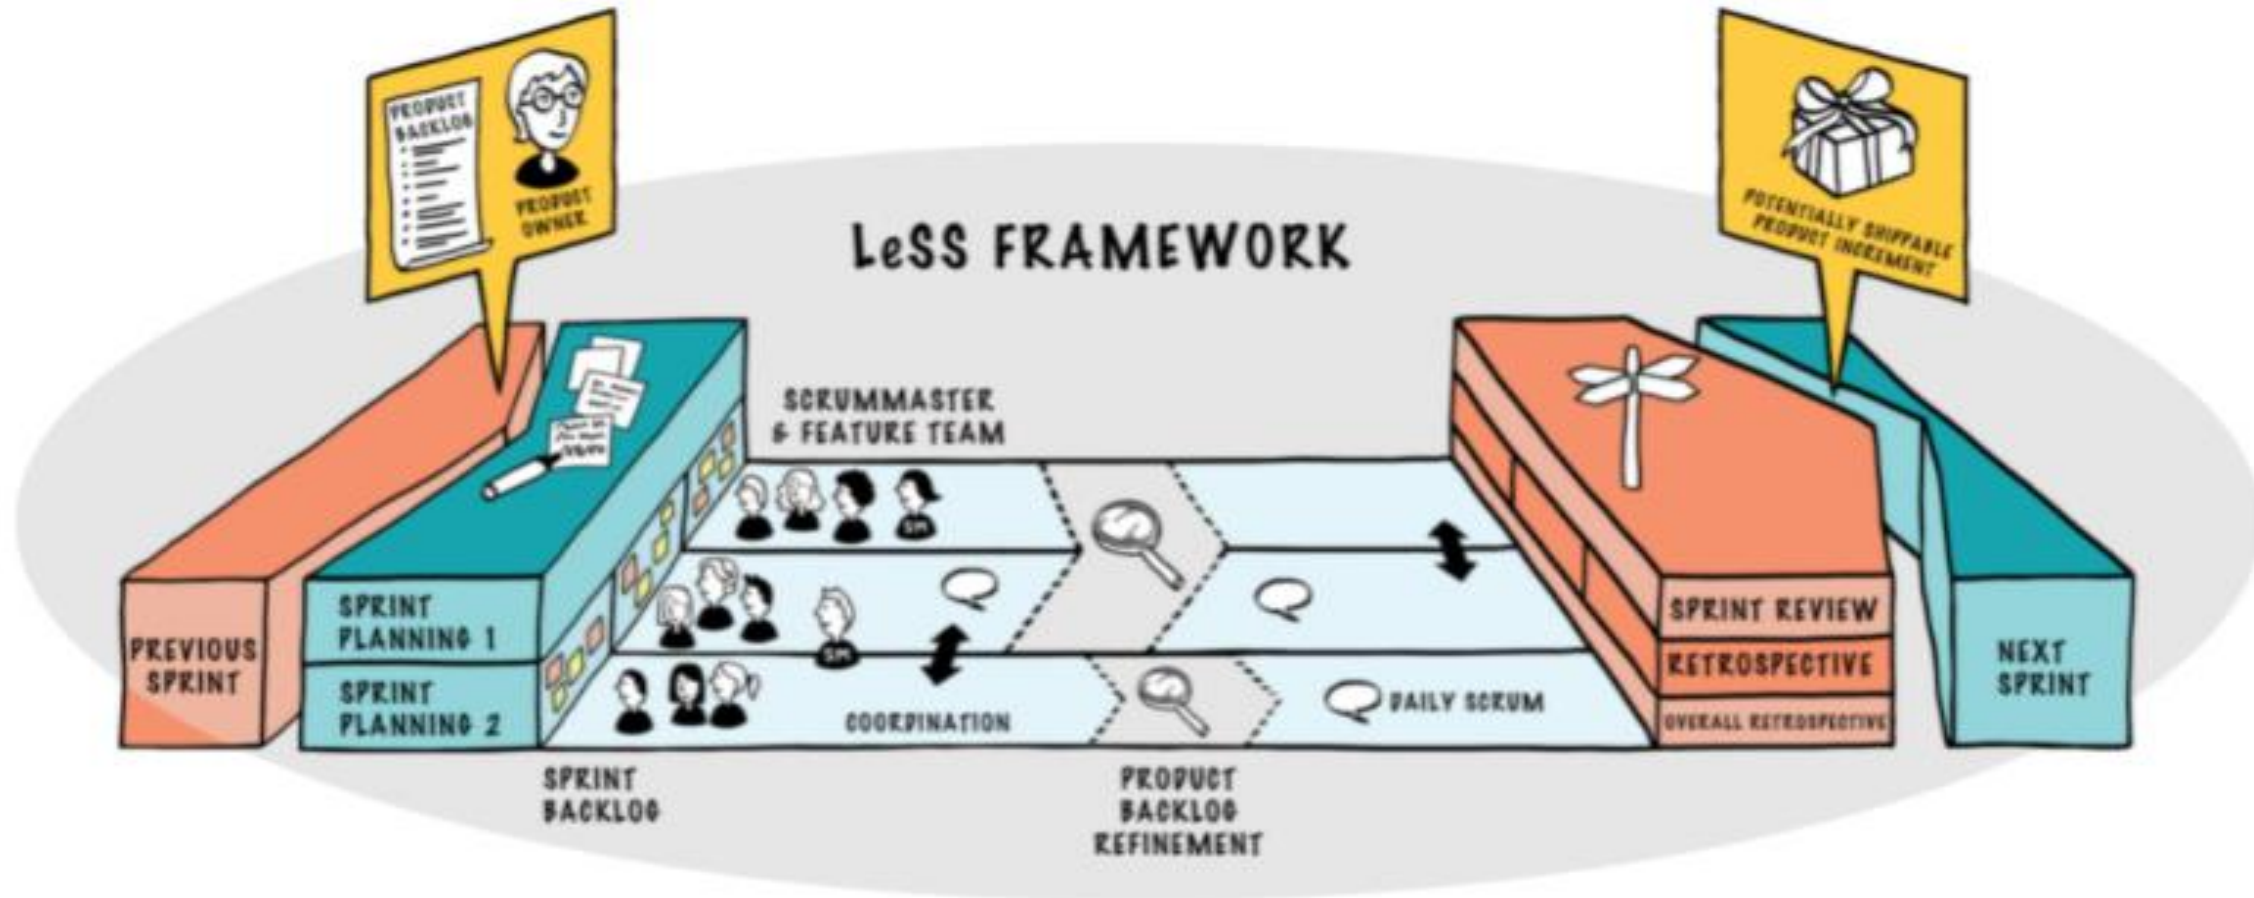

Large Scale Scrum: More with Less

What's
next?

- LeSS is Scrum applied to many teams working together on one product.
- Less Includes:
 - Rules – Forms The Foundation
 - Guides – To effectively adopt the rules
 - Experiment – Situational
 - Principles - At the heart, a set of principles—extracted from experience with LeSS adoptions
- LeSS guides and experiments are optional. But bypass or drop those that limit further improvement or just don't fit.

LeSS Framework

Thank You

What's
next?

LeSS History

2010

- Large-Scale Scrum
- Test
- Product Management
- Planning
- Coordination
- Requirements
- Design & Architecture
- Legacy Code
- Continuous Integration
- Inspect & Adapt
- Multisite
- Offshore
- Contracts

LeSS History

2016

LeSS Structure

- Adoption
- Organize by Customer Value
- Managers
- Scrum Masters

LeSS Product

- Product Owner
- Product Backlog
- Definition of Done
- Initial PBR

LeSS Sprint

- Sprint Planning
- Sprint Coordination and Integration
- Product Backlog Refinement
- Sprint Review
- Sprint Retrospective

More or LeSS

- Architecture
- DevOps
